

There is a difference in mixing and pumping equipment.
"WE PROVE IT EVERYDAY"

Easy maneuvering for simple, fast set-up.

Unit has a low center of gravity for stability during positioning.

Re-filling won't delay your other operations.

The filling process does not affect discharge rate of material.

Quick and convenient loading at job-site.

Bulk materials are pneumatically loaded from bulk delivery trucks.

Consistent delivery of material is assured.

Hydraulic auger-drive maintains a smooth, constant discharge rate.

Technical Specifications.

Length: 40' – 0" Width: 8' – 2" Height: 12' – 6"
Capacity: 900cu/ft Empty Wt: 17,500lbs.
